REAL-LUMEN

Description

The COMPACT version of the eXtreme Lighting Device is a universal lighting tool that is particularly suitable for mobile use thanks to its eXtremely compact dimensions and eXtremely low weight with more than 40,000 REAL lumens.

The range of applications for this universal high-performance lighting tool has now been extended even further:

Thanks to two interchangeable battery holders, you will never be in the dark again in future, even without a power supply. The ALDEBARAN® XLD COMPACT BatteryFlex is compatible with 18 V batteries from Metabo, Milwaukee & DeWalt, providing maximum flexibility when choosing a power source.

With the integrated switch box, the light - like its big brothers - can be switched in segments (180° each) and dimmed as a whole.

Thanks to the retained option of using an interchangeable bolt, the ALDEBARAN® XLD COMPACT BatteryFlex can also be operated normally as well as upside down and suspended.

Product Highlights

- Two interchangeable battery holders
- Passive, wear-free cooling technology
- Switch / dim box
- Switchable on one side
- Dimmable
- Optimum handling thanks to low weight and compact dimensions
- Overhead operation possible thanks to integrated interchangeable pin
- Incl. transport bag and diffusers

Technical Specifications

General Data

Attribute	Value	Unit
Brand	ALDEBARAN®	
Series	XLD	
Model	COMPACT BatteryFlex	
Temperature (min)	-25	°C
Temperature (max)	+40	°C
Dimensions	446 x 446 x 228	mm
Weight	8,5	kg
Dimmable	yes	
Light Functions	Dimmable, 180° Segment Switch	

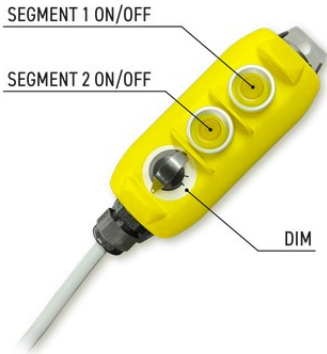

Lighting Data

Attribute	Value	Unit
Colour Temperature	5000	K
Luminant	4x SETO XPECT®2 LED module	
Luminous Flux	45500	lm
Beam Angle	360/60	°
Luminous Flux (real)	40500	lm
CRI	>70	
Durability	50000	h

Electrical Data

Attribute	Value	Unit
Input Voltage	16-21	V
Type of Current	DC	
Power Consumption	250	W
Protection Class	III	
Battery Type	Compatibel with 18 V battery - Metabo, Milwaukee &
