Description

This compact, rugged, stackable and safe outlet manifold is used to power most hand-held power tools. The power distributor consists of a sturdy, impact-resistant plastic housing in RAL 2000 yellow-orange and is water resistant. The outlet manifold is very lightweight and portable, while also weathering and aging. Up to three distribution so you can work efficiently even in confined environments can be stacked easily without tools.

Product Highlights

- Shockproof synthetic housing, stackable to save space
- Portable, light and easy to handle
- Practical, integrated cable winder in the foot
- Infeed via device plug or via connection cable with CEE plug
