

SETO CRANE FRAME HOLDER for crane jibs with square tubes 40-80 mm, V2A

Accessories

Article No.: **1410993444**

1,1

KG

Description

The SETO CRANE FRAME for crane jibs with square profiles is specially designed for use on jibs whose cross struts are made from square profiles. As there is no need for compatibility with round bars, the result is a significantly simpler construction that not only saves space and weight but also costs and is just as safe. Thanks to high-quality stainless steel, the whole thing is rust-free and can be assembled with the simplest tools.

Product Highlights

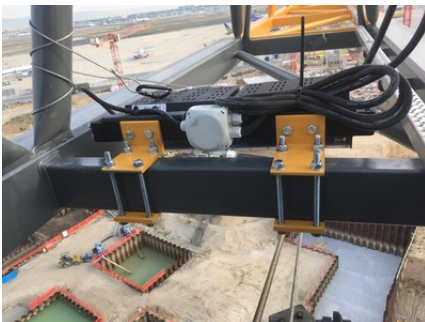

- For crane jibs with square profiles
- Weatherproof
- High quality workmanship, designed for heavy use
