Description

The green SETO LED SNAKE is ideal for clearly marking escape routes, emergency exits and traffic routes. Thanks to its intense green light, paths, passageways and exits can be quickly identified and clearly highlighted, even in large and confusing areas.

The single-sided LED rope-light can be flexibly laid along walls, passageways or doorways, thereby enabling targeted lighting. Thanks to its robust and flexible design, the SETO LED SNAKE is particularly suitable for use on building sites as well as in industrial and temporary work areas.

Installation is quick and straightforward: the LED SNAKE is unrolled, laid along the desired route and secured using suitable mounting accessories.

Product Highlights

- Intense green light colour for high visibility
- Ideal for marking escape routes, emergency exits and traffic routes
- Unidirectional, targeted light emission
- Flexible and easy to install
