Description

Mobile information and guidance for emergency situations

The ALDEBARAN® V-MAG BASIC TOWER IP65 is a mobile information system with an integrated LED display for the rapid visual transmission of information, warnings and signals. This compact system is particularly well-suited for wayfinding and communication in emergency and exceptional situations for example, in restricted zones, hazardous areas or disaster zones.

The integrated LED display panel allows various types of media, such as text, images and animations, to be displayed clearly. Content is transmitted centrally via the SETO Cloud using LAN, Wi-Fi or 4G, as well as locally via USB. With a visibility range of approximately five metres or more, the tower enables information to be conveyed quickly and clearly on site.

Thanks to its low weight, integrated carrying handles and compact design, the ALDEBARAN® V-MAG BASIC TOWER IP65 is easy to transport and position. Several systems can be stacked on top of one another to save space thanks to the integrated stacking grooves. The IP65 protection rating ensures reliable operation even in challenging outdoor environments.

For even more flexible, mains-independent use, the tower is optionally available with an integrated battery system. A cable winder on the rear also ensures the connection cable is stored safely and neatly.

Product Highlights

- Mobile information system with integrated LED display
- Display of text, images, animations and signals
- Ideal for warnings and way finding in emergency and hazard zones
- High-power LEDs with a maximum of 150 W
- Visibility range from approx. 5 m
- Data transfer via the SETO Cloud over LAN, Wi-Fi or 4G, as well as locally via USB
- IP65 protection rating for demanding outdoor applications
- Compact, lightweight and easy to transport
- Space-saving, stackable
- Integrated carrying handles and cable winder
- Optionally available with an integrated battery system
- Customizable ownership label

Technical Specifications

General Data

Attribute	Value	Unit
Brand	ALDEBARAN®	

Technical Specifications (cont.)

General Data

Attribute	Value	Unit
Series	V-MAG	
Model	BASIC TOWER TP65	
IP Class	IP65	
Temperature (min)	-25	°C
Temperature (max)	+65	°C
Dimensions	600 x 670	mm
Weight	24	kg
Pixel Pitch	3.91	mm
Module Resolution	64 x 64	
Module Size	250 x 250	mm
Cabinet Resolution	256 x 256	
Cabinet Size	500 x 500	mm

Electrical Data

Attribute	Value	Unit
Input Voltage	110 - 230	V
Mains Frequency	50	Hz
Type of Current	AC	
Power Consumption	200	W
Protection Class	I
