Description

The rechargeable ATEXOR MICA IL640 represents the next generation of resistant high-performance flashlights. The case has been specially designed load extreme for several years. The hardened 5 mm glass lens is virtually indestructible and unemfindlich to scratches and many chemicals.

The MICA IL640 emits a bright, focused light beam for optimum visibility. Despite an additional high-power CREE LED IL640 MICA delivers the same outstanding battery life as its predecessor, with three LEDs. The ergonomic dual-mode switch you can choose between long periods of operation or extreme light output.

When the battery level is low, the light in 15-second intervals starts flashing. The MICA IL640 is compatible with the MICA ILC4 charger which can charge an empty IL640 itself even at + 40 ° C. The MICA can IL640-90 CRI + LEDs also be ordered for better color rendering with special.

Product Highlights

- Rechargeable, environmentally friendly NIMH battery
- Useable as a signal light
- Robust splash-proof housing
- TÜV certified

Technical Specifications

General Data

Attribute	Value	Unit
Series	IL	
Model	640	
Housing	plastic	
Temperature (min)	-20	°C
Temperature (max)	+40	°C
Dimensions	215 x 120 x 125	mm
Weight	1,4	kg
IP Class	IP67	
Light Functions	high / low	

Lighting Data

Attribute	Value	Unit
Luminant	4x CREE LED	

Technical Specifications (cont.)

Lighting Data

Attribute	Value	Unit
Luminous Flux (real)	760/177	lm

Electrical Data

Attribute	Value	Unit
Type of Battery	NiMH 6V	
Battery Voltage	6	V
Operating Time (High Level)	8	h
Operating Time (Low Level)	24	h
Charge Time	11	h
