Description

In addition to the proven features such as reliability and outstanding light output that already distinguished the predecessor model, the additional functions of the SETO FLASHLIGHT FC LED RECHARGEABLE 2.0 have also been revised. The tried-and-tested focusing system, which can be operated with one hand offers the right light cone for every application. The two brightness levels (100 and 50 percent) can be selected via the rubberised end cap switch. An additional integrated emergency light function can be switched on or off manually. It is switched on automatically as soon as there is a power failure during a charging process. The protective ring attached to the housing minimises the risk of the light rolling away. Another accessory highlight is the removable and flexibly designed belt clip / holster, which is supplied with the light and allows the SETO FLASHLIGHT FC LED RECHARGEABLE 2.0 to be worn on the belt.

The SETO FLASHLIGHT FC LED RECHARGEABLE 2.0 is charged via the charging cradle included in the scope of delivery, which can be operated both via the USB mains adapter and the USB car adapter. The charging cradle can either be placed on a flat surface, e. g. a table-top, or attached to a wall by screwing or sticking it on. The Velcro system supplied means that it does not need to be screwed into the vehicle. The integrated control display shows the current charge status of the lamp rechargeable battery. The rechargeable battery is a temperature-resistant exchangeable rechargeable battery, which is protected against an undesired memory effect of the rechargeable battery in case of irregular charging cycles by the lithium-ion technology.

Product Highlights

- Quickly rechargeable thanks to modern Li-Ion technology
- Convenient one-hand focusing system
- Different light modes (100 and 50 percent, emergency light)
- Velcro system solution for vehicle charging (attachment of charging cradle in vehicle)
- Integrated capacity indicator
- Supplied charging cradle (also available as a multiple CHARGING STATION) can also be used as a wall mount
- Anti-roll ring on the housing
- Belt clip / holster included

Technical Specifications

General Data

Attribute	Value	Unit
Brand	SETO	
Model	FLASHLIGHT FC LED RECHARGEABLE 2.0	
Dimensions	34 x 163	mm
IP Class	IPX4	
Weight	0,19	kg
Light Functions	100% / 50% / Emergency Light	

Lighting Data

Attribute	Value	Unit
Luminant	CREE-XPG 3	
Luminous Flux (real)	450/230	lm
Colour Temperature	6500-7000	K
CRI	70	
Durability	50000	h

Electrical Data

Attribute	Value	Unit
Operating Time (High Level)	12	h
Operating Time (Low Level)	22	h
Charge Time	4	h
Charger	USB-C	
Battery	Li-Ionen 18650 / 3350mAh / 3,7V / 12,39Wh
